Summary of Experience

James E. Hosking consults primarily in the areas of facility master planning, functional space programming, business and program development, and ambulatory care planning. With over 30 years of healthcare consulting experience, Hosking has worked with community hospitals, academic health science centers, and healthcare systems completing a variety of facilities, strategy, and operations assignments.

Recent engagements include:

- Functional space programming for a 300-bed replacement hospital, incorporating operating concepts to reduce staffing requirements 15 percent.
- Master site and facility planning for a medical mall complex integrating physician practices and inpatients with a shared clinical ancillary pavilion.
- Ongoing strategic and facility planning for a regional healthcare system to improve service distribution in key market segments and strengthen market position.
- Site selection, market analysis, and implementation planning for a multi-site ambulatory care network.

Prior to forming Hosking|Klute Healthcare, Hosking held positions as a partner in two major accounting firms and in a healthcare consulting firm. In all of these organizations, he led healthcare facility and equipment planning practices. Hosking also worked as a healthcare management engineering consultant providing operations consulting to a large academic medical center.

Professional Affiliations

Hosking is a Fellow of the American Association of Healthcare Consultants, Healthcare Information and Management Systems Society, and American College of Healthcare Executives.

His recent speaking engagements include presentations to the American Society of Healthcare Engineering, the American College of Healthcare Executives, the Healthcare Information and Management Systems Society, the American Association of Healthcare Consultants, and various other healthcare organizations. Additionally, Hosking has authored several book chapters and published numerous articles in national healthcare publications.

Education

Hosking earned a Master of Business Administration with a concentration in Hospital Administration and Finance at the University of Chicago. He holds a Bachelor of Science in Engineering (Industrial) from the University of Michigan, Ann Arbor.
